

# WHO WE ARE?

MORE THAN  
**10 YEARS**  
EXPERIENCE IN IoT BUSINESS

We provide connectivity solutions to partners and companies at home and abroad. Due to our specialization in 4G & 5G hardware and connectivity, we can meet any data need complete with associated network advice seamlessly, at a sharp price. With full technical support and expertise you can respond to new Internet of Things (IoT) possibilities without major financial risks.

**OUR MISSION:** To make complex technological products and applications accessible to individuals and organizations.

**OUR VISION:** Become the leading IoT Service Provider in Europe of IoT and Mobile Broadband connectivity and All-In One Solutions for every industry.

**OUR PURPOSE:** Helping customers to get the maximum results and value from technology and data in daily lives and business.

**100%**  
GROWTH OF CONNECTIVITY IN 2021

**WORLDWIDE  
IoT  
COVERAGE**

2 OFFICES: NETHERLANDS AND GERMANY

**OUR OFFER** ■ IoT / M2M bundles EU (eSIM technology)  
■ Mobile broadband

# WE BRING IoT TOGETHER

## PREMIUM BRANDS

For our IoT / M2M and Mobile Broadband subscriptions we work together with various network providers, characterized by their high coverage and uptime.

## PERSONAL IoT TOUCH

Short lines of communication and always an employee who will help you immediately. You not only get the service, but also the reliability you deserve through the cooperation with reliable networks and the experience we have gained in various industries.

## VALUE FOR MONEY & BUSINESS TOOLS

Service sounds expensive, but our focus means you don't pay for things you don't need. Comgate offers you the possibility to manage all data solutions via a portal. We also help you with business case support, training, SLAs and hardware advice.

## CUSTOMIZATION? THAT IS ALSO POSSIBLE

### All-in-One Configurator

A custom-made mobile solution is also possible. Configure your total solution, which consists of 4G / 5G router, connectivity, accessories and SLA.
